

Three Cross Curricular, Creative Curriculum Projects

using ICT with Sam Paechter **Boffin Projects Ltd**

Flickbooks

A unique two-day project for two classes of KS2 or older

Meets skills objectives in ICT, PE, DT, Art & Design and English

Ideal for classes studying movement, this is a heady mix of PE, ICT and good old-fashioned craft workshop in which every child makes a photographic flickbook of their own movement sequence.

Day One

Children devise and film a short movement sequence. Then, using specially designed software, they turn the film into individual photos in a format suitable for flickbook print.

Day Two

Around two weeks later, to allow for photo processing; they cut, stick and reassemble their photos into unique personalised flickbooks to take home.

3D Photography

Advanced projects for Gifted & Talented learners

Meet skills objectives in Maths, Science, ICT, DT, Art & Design and extending across the curriculum

Making 3d cameras, documenting the school or surrounding area, 3D portraits, phantograms, even 3D movies...

These projects can go in many directions and are best tailored to suit the needs of individual schools and pupils. Phone or email to discuss.

"Sam's innovative take on the curriculum always surprises and inspires. He has a great rapport with the children and we look forward to his visits every year."

Julian Gorton Head Teacher,
Shakespeare Primary School, Leeds

Workshops £200 per day plus materials • 07939 077036

Stop Frame Claymation

Meets skills objectives in English, DT, ICT, Art & Design and Music

A workshop in stop-frame-animation (the technique responsible for Wallace and Gromit, Pingu and Morph) using modelling clay and other materials.

Each child uses plasticine, computers and webcams to make his or her own animated films. As an extension they then devise and record sound effects, dialogue and music for their film.

Children of all ages and abilities find these workshops extremely rewarding and are often fired up to continue making animated films at school and at home.

“Using his expertise Sam gently guides the children through the animation process, delighting in their progress and filling them with enthusiasm and confidence.”

Alex Mann
Y3 teacher, Harehills Primary School, Leeds
